

# DIRECTOR'S MESSAGE

---

Welcome to **Ishwar Logistics Pvt. Ltd.**

Our journey began in 2005 with a simple vision — to build a logistics company based on trust, commitment, transparency, and long-term relationships. What started as a small independent venture under the name **HAH Logistics** has today grown into a trusted name in customs clearance and international logistics.

Unlike many traditional businesses, Ishwar Logistics was not a parental or inherited business. It was built from the ground up with determination, industry knowledge, and the confidence to create something meaningful through hard work and consistency.

I completed my **B.Sc. (Hons.) in Computer Science** along with a **Master's degree in International Business (MIB)** from **DAVV University, Indore**. Before establishing the company, I worked for nearly five years with reputed export-oriented organizations including **Orient Craft Pvt. Ltd.**, where I gained practical experience in exports, international trade, customs procedures, logistics operations, and client servicing. Those experiences gave me a deep understanding of the challenges faced by exporters and importers and inspired me to create a company focused on providing dependable and professional logistics solutions.

Over the years, Ishwar Logistics Pvt. Ltd. has developed strong expertise in customs clearance, freight forwarding, and end-to-end supply chain solutions for both import and export businesses. While customs clearance remains our core strength, we continue to expand our freight forwarding and global logistics capabilities to serve clients across industries and international markets.

One of our biggest achievements is the trust of our clients. Many customers who started their journey with us in 2005 continue to work with us even today. This long-standing association reflects our dedication towards service quality, ethical business practices, and customer satisfaction.

At ILPL, we believe logistics is not only about moving cargo — it is about responsibility, timelines, communication, and building partnerships that last for years.

We remain committed to delivering reliable, transparent, and efficient logistics solutions while continuously adapting to the evolving global trade environment.

I sincerely thank all our clients, partners, and team members for being part of our journey and contributing to the growth of Ishwar Logistics Pvt. Ltd.

**Warm Regards,**

**Dharmendra Jain**

Director

Ishwar Logistics Pvt. Ltd.
